Jurisdiction and Venue

9. This action arises under the patent laws of the United States, Title 35 of the United States Code. This Court has original subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338(a).

10. This Court has personal jurisdiction over Verizon in this action because Verizon has committed acts of infringement within this District giving rise to this action, has a regular and established place of business in this District, and has established minimum contacts with this forum such that the exercise of jurisdiction over Verizon would not offend traditional notions of fair play and substantial justice. Verizon, directly and/or through subsidiaries or intermediaries, conducts its business extensively throughout Texas, by shipping, distributing, offering for sale, selling, and advertising its products and/or services in the State of Texas and the Eastern District of Texas, regularly does business or solicits business, engages in other persistent courses of conduct, and/or derives substantial revenue from products and/or services provided to individuals in the State of Texas, and commits acts of infringement of Plaintiff's patents in this District by, among other things, making, using, importing, offering to sell, and selling products and/or services that infringe the asserted patents, including without limitation the tablets and phones accused of infringement in this case and cellular services offered by Verizon on its network.

11. Verizon, directly and/or through subsidiaries or intermediaries, has purposefully and voluntarily placed one or more products and/or services in the stream of commerce that practice the Asserted Patents with the intention and expectation that they will be purchased and used by consumers in the Eastern District of Texas. These products and/or services have been and continue to be purchased and used in the Eastern District of Texas.

12. Venue as to Verizon is proper in this District under 28 U.S.C. §§ 1391 and 1400(b). On information and belief, Verizon resides in this District and/or has committed acts of infringement and has a regular and established place of business in this District.

13. For example, Defendants have regular and established places of business in the Eastern District of Texas, including at 1111 E Grand Ave., Marshall, TX 75670; 500 E Loop 281, Longview, TX 75605; 2400 S Jefferson Ave., Mount Pleasant, TX 75455; 1006 East End Boulevard N., Suite A, Marshall, Texas 75670; 741 N Central Expressway, Plano, Texas 75075; 2330 Preston Road, Suite 500, Frisco, Texas 75034; 3220 East Hebron Parkway, Suite 114, Carrollton, Texas 75010; 5020 State Highway 121, The Colony, Texas 75056; and 204 Central Expressway S, Suite 40, Allen, Texas 75013.

14. For example, Verizon maintains or has authorized retail locations in this District, including at the addresses listed above in Paragraph 13, where cellular handsets, and other infringing devices have been sold.

15. For example, Verizon also owns, leases, maintains and/or operates cellular base stations in this District that provide 5G data services to Verizon customers in this District, including numerous cell tower locations in Tyler, Texas and Longview, Texas.

16. For example, Verizon offers 5G data coverage to customers in this District. Furthermore, according to its website, Verizon also offers and /or provides 4G and 5G services and equipment to customers in this District.

Count 1 – Claim for infringement of the '347 patent.

17. Cobblestone incorporates by reference each of the allegations in paragraphs 1–16 above and further alleges as follows:

18. Plaintiff owns by assignment all rights, title, and interest in U.S. Patent No. 8,891,347 (the “’347 Patent”), entitled “User-Focusing Technique for Wireless Communication Systems.” The ’347 Patent was duly and legally issued by the United States Patent and Trademark Office on November 18, 2014. A true and correct copy of the ’347 Patent is attached as Exhibit 1.

19. On information and belief, Defendants make, use, offer for sale, sell, and/or import certain products (“Accused Instrumentalities”), including (1) cellular base stations that support 3GPP 5G NR beamforming, and (2) cellular handsets that support 3GPP 5G NR beamforming, including without limitation the Apple iPhone 12, iPhone 12 mini, iPhone 13, iPhone 13 mini, iPhone 13 Pro, iPhone 13 Pro Max, iPhone 14, iPhone 14 Plus, iPhone 14 Pro, and iPhone 14 Pro Max and Samsung Galaxy S20 FE, Galaxy S21 FE, Galaxy S22, Galaxy S22+, Galaxy S22 Ultra, Galaxy Z Flip3, Galaxy Z Flip4, Galaxy Z Fold3, Galaxy Z Fold4, and Galaxy A53, that directly infringe, literally and/or under the doctrine of equivalents, at least Claim 1 of the ’347 Patent.

20. Defendants also knowingly and intentionally induce infringement of at least Claim 1 of the ’347 Patent in violation of 35 U.S.C. § 271(b). Through at least the filing and service of this Complaint, Defendants have had knowledge of the ’347 Patent and the infringing nature of the Accused Instrumentalities. Despite this knowledge of the ’347 Patent, Defendants continue to actively encourage and instruct their customers and end users (for example, through user manuals and online instruction materials on their website) to use the Accused Instrumentalities in ways that directly infringe the ’347 Patent. Defendants do so knowing and intending that their customers and end users will commit these infringing acts. Defendants also continue to make, use, offer for sale, sell, and/or import the Accused Instrumentalities, despite their knowledge of the ’347 Patent, thereby specifically intending for and inducing their customers to infringe the ’347 Patent through the customers’ normal and customary use of the Accused Instrumentalities.

21. Defendants have also infringed, and continue to infringe, at least Claim 1 of the '347 Patent by selling, offering for sale, or importing into the United States, the Accused Instrumentalities, knowing that the Accused Instrumentalities constitute a material part of the inventions claimed in the '347 Patent, are especially made or adapted to infringe the '347 Patent, and are not staple articles or commodities of commerce suitable for non-infringing use. Defendants have been, and currently are, contributorily infringing the '347 Patent in violation of 35 U.S.C. §§ 271(c) and (f).

22. The Accused Instrumentalities satisfy all claim limitations of one or more claims of the '347 Patent. A claim chart comparing independent claim 1 of the '347 Patent to representative Accused Instrumentalities is attached as Exhibit 5.

23. By making, using, offering for sale, selling and/or importing into the United States the Accused Instrumentalities, Defendants have injured Plaintiff and are liable for infringement of the '347 Patent pursuant to 35 U.S.C. § 271.

24. As a result of Defendants' infringement of the '347 Patent, Plaintiff is entitled to monetary damages in an amount adequate to compensate for Defendants' infringement, but in no event less than a reasonable royalty for the use made of the invention by Defendants, together with interest and costs as fixed by the Court.

25. Cobblestone incorporates by reference each of the allegations in paragraphs 1–24 above and further alleges as follows:

27. On information and belief, Defendants make, use, offer for sale, sell, and/or import certain products (“Accused Instrumentalities”), including cellular base stations that support handover between 4G LTE and 5G NR wireless networks, that directly infringe, literally and/or under the doctrine of equivalents, at least Claim 9 of the ’888 Patent.

28. Defendants also knowingly and intentionally induce infringement of at least Claim 9 of the ’888 Patent in violation of 35 U.S.C. § 271(b). Through at least the filing and service of this Complaint, Defendants have had knowledge of the ’888 Patent and the infringing nature of the Accused Instrumentalities. Despite this knowledge of the ’888 Patent, Defendants continue to actively encourage and instruct their customers and end users (for example, through user manuals and online instruction materials on their website) to use the Accused Instrumentalities in ways that directly infringe the ’888 Patent. Defendants do so knowing and intending that their customers and end users will commit these infringing acts. Defendants also continue to make, use, offer for sale, sell, and/or import the Accused Instrumentalities, despite their knowledge of the ’888 Patent, thereby specifically intending for and inducing their customers to infringe the ’888 Patent through the customers’ normal and customary use of the Accused Instrumentalities.

29. Defendants have also infringed, and continue to infringe, at least Claim 9 of the ’888 Patent by selling, offering for sale, or importing into the United States, the Accused Instrumentalities, knowing that the Accused Instrumentalities constitute a material part of the inventions claimed in the ’888 Patent, are especially made or adapted to infringe the ’888 Patent, and are not staple articles or commodities of commerce suitable for non-infringing use. 32. As a result of Defendants' infringement of the '888 Patent, Plaintiff is entitled to monetary damages in an amount adequate to compensate for Defendants' infringement, but in no event less than a reasonable royalty for the use made of the invention by Defendants, together with interest and costs as fixed by the Court.

The '361 Patent was duly and legally issued by the United States Patent and Trademark Office on July 30, 2019. A true and correct copy of the '361 Patent is attached as Exhibit 3.

35. On information and belief, Defendants make, use, offer for sale, sell, and/or import certain products ("Accused Instrumentalities"), including cellular base stations that support 3GPP NG-RAN supporting directional Supplementary Uplink (SUL) functionality, that directly infringe, literally and/or under the doctrine of equivalents, at least Claim 10 of the '361 Patent.

36. Defendants also knowingly and intentionally induce infringement of at least Claim 10 of the '361 Patent in violation of 35 U.S.C. § 271(b). Through at least the filing and service of this

Complaint, Defendants have had knowledge of the '361 Patent and the infringing nature of the Accused Instrumentalities. Despite this knowledge of the '361 Patent, Defendants continue to actively encourage and instruct their customers and end users (for example, through user manuals and online instruction materials on their website) to use the Accused Instrumentalities in ways that directly infringe the '361 Patent. Defendants do so knowing and intending that their customers and end users will commit these infringing acts. Defendants also continue to make, use, offer for sale, sell, and/or import the Accused Instrumentalities, despite their knowledge of the '361 Patent, thereby specifically intending for and inducing their customers to infringe the '361 Patent through the customers' normal and customary use of the Accused Instrumentalities.

37. Defendants have also infringed, and continue to infringe, at least Claim 10 of the '361 Patent by selling, offering for sale, or importing into the United States, the Accused Instrumentalities, knowing that the Accused Instrumentalities constitute a material part of the inventions claimed in the '361 Patent, are especially made or adapted to infringe the '361 Patent, and are not staple articles or commodities of commerce suitable for non-infringing use.
